DCEC-English

英語閱讀能力診斷報告

Diagnostic and Certification of English Competency Report

Name：

Alex Hamilton

Date of Test：

2022-01-18

Overall Reading Ability

Your Score **1000**　Performance-Rating **99**

The reader can read books that feature different scenarios and sentences of slightly higher complexity as well as everyday texts (e.g., advertisements, leaflets, instructions, etc.) in order to cultivate strong English literacy skills.

1 Information Extraction

Your Score **250**　Performance-Rating **99**

The reader has reached an advanced level of extracting specific information when reading texts with (1) abstract topics, (2) complex and diverse information and scenarios, and (3) relatively long and complex sentence structures.

2 Information Integration

Your Score **250**　Performance-Rating **99**

The reader reached an advanced level of identifying important context clues and processing relevant information to derive the main idea or answers to comprehension questions when reading texts with (1) abstract topics, (2) complex and diverse information and scenarios, and (3) relatively long and complex sentence structures.

3 Local Inference

Your Score **250**　Performance-Rating **99**

The reader reached an advanced level of identifying context clues to draw inferences regarding pronoun references, unfamiliar vocabulary, and implied meanings within sentences when reading texts with (1) abstract topics, (2) complex and diverse information and scenarios, and (3) relatively long and complex sentence structures.

4 Global Inference

Your Score **250**　Performance-Rating **99**

The reader has reached an advanced level of identifying specific or general context clues within the text and processing information to grasp implied meanings by using related background knowledge when reading texts or charts with (1) abstract topics, (2) complex and diverse information and scenarios, and (3) relatively long and complex sentence structures.
